

Workshop/Presentation Topics

- The Power of Visual Learning
- Visual Learning in the Classroom

Program Consultant

Jason Brooks

**President, Brooks Educational Aids, Inc.
San Antonio, Texas**

Jason Brooks, president of Brooks Educational Aids, is the creator of the V.I.T.A. program. V.I.T.A. is a math program based on his research involving visual learning and is distributed nationally. Mr. Brooks has trained hundreds of teachers in using visual learning, the most powerful method of learning in the classroom, to enhance student understanding in the mathematics classroom. Through his innovative and powerful presentation style, his math program is used by more than 100,000 elementary students each month. Mr. Brooks was a third grade teacher in Lancaster, Texas, and he holds a B.S. from Southwestern Assemblies of God University.
